

Our Partners

We work hand-in-hand with social service and youth agencies, churches, caring businesses, mental health services, neighbors, and other individuals and groups dedicated to making neighborhoods safe and supportive places where children can thrive.

Here's what some of our parents had to say about Community Partners.

♥ "I would recommend Community Partners to anyone having a problem."

♥ "I want to thank you for your services. I don't know where we would be right now without your help!"

♥ "We want to thank you guys very much for all the help!"

♥ "Yes, our family support worker was very helpful to our daughter and helped us through our crisis."

Vision

For communities working together to strengthen families and keep children safe.

Mission

For every family in our region to have access to a wide array of prevention education and support services in their local community.

All services are provided without regard to race, age, color, religion, sex, disability, national origin or ancestry.

We listen, help and connect parents to local resources & services

GOAL SETTING

Our Program

Community Partners Family Network is a free, voluntary, goal-oriented, support service for families in Jasper, LaPorte, Newton, Porter, Pulaski and Starke Counties in Indiana.

Our program helps parents define and achieve their own family goals. We empower parents and strengthen family bonds by working together with family members, local partner agencies and community members who care about families. Community Partners provides life coaching to parents to build confidence, develop skills and connect families with community resources.

How it Works

All parents deserve support in their parenting role. Community Partners staff help parents work through the stressors of their family life.

Our family support staff provides personal visits at the home or another convenient location. In partnership with the family, our staff uses a research based assessment to identify needs and begin goal setting. Proven strategies and interventions such as Nurturing Parenting, Parents as Teachers and Motivational Interviewing are key components of this program. With Community Partners support, family functioning will be improved, relationships strengthened and crisis prevented.
